

## Delivery Phase

### Sprint 3

Date	29 Oct 2022
Team Id	PNT2022TMID34780
Team Members	Lijish Wilson S (lead) Ashish A L Ajith B Akilan K Shan Pieo Wesley A
Project	Project – IoT Based Safety Gadget For Child Safety Monitoring & Notification

## Create Cloudant DB:

## Node-Red Service with Clodant DB:

The screenshot displays the Node-RED web interface. The main workspace shows a flow titled "Flow 1". The flow begins with an "IBM IoT" node (green, connected). This node connects to a series of "function" nodes (orange). These function nodes are then connected to various output nodes: "chidsafety" (blue), "msg payload" (green), "Child name" (blue), "gauge" (blue), "Temperature" (blue), "temp\_status" (blue), "Latitude" (blue), "Child Zone" (blue), "Longitude" (blue), and "worldmap" (blue). The "worldmap" node is also connected. The right sidebar shows the "debug" console with logs for the flow, including timestamps and node IDs.
